DIMENSIONS

FEATURES

- **Continuous lensing standard– runs up to 200'**
- Extruded aluminum single piece housing
- 4' and 8' individual units, or continuous rows
- Linear runs with proprietary joiner design
- Light levels can be set at the factory
- Efficacy up to 125 lm/W
- Soft diffuse direct lighting
- Textured powder coat or clear anodize finish
- Approved for dry and damp locations
- 0-10v dimming is standard
- Dim to 1% of output current is standard
- 90 CRI (R9 50min) available
- CA Title 24 / JA8 installation compatible

ROW CONFIGURATIONS

xx (Run Length)

The standard construction of run lengths is to build with as many 8' sections as possible and finish the run with a shorter length fixture if necessary.

Examples of the standard construction of runs over 8' are as follows:

SRxx (Symmetric Run)

The construction of SRxx is to build with equal length fixtures. Please indicate this on your P.O. when placing your order.

Examples of symmetric construction of runs over 8' are as follows:

MOUNTING LOCATIONS

Each starter or individual fixture will be provided with (2) mounting supports (●). Each additional fixture will be provided with (1) support which can be located anywhere along the 2nd half of the fixture (highlighted below):

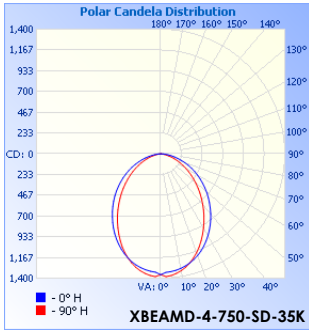

Examples of continuous run mounting locations are as follows:

SPECIFICATIONS

Housing

Nominal 2.7" x 4" square housing of continuous extruded 6063 T5 aluminum.

Color

Colors for the housing are available in a powder coated white and black or clear anodize. Consult factory for custom colors.

Luminaire Length

4' or 8' lengths are available for a single stand-alone section. Using internal joiners, 4' and 8' sections can be joined to form longer rows.

End Caps

Injection molded flat end caps are mechanically attached with no exposed fasteners to enhance architectural aesthetic and prevent light leak. Machined end caps available.

Source

Lumen packages are available in four color temperature options (3000K, 3500K, 4000K and 5000K) — all within 2.5 MacAdam ellipses.

Certification

Intertek cETLus Listed. RoHS (Restriction of Hazardous Substances) and Buy American Act compliant.

Battery

Philips Bodine lithium ion battery providing up to 720lm(6W) or up to 1200lm(10W) for 90 minutes. UL924 listed. Class 2 compliant. Meets Title 20 CEC (California Energy Commission) efficiency standards.

Environment

Suitable for dry and damp locations.
Operating temp.: -40°C to +50°C
-40°F to +122°F

Dimming Driver

Universal Lighting Technologies (ULT) Everline series of LED drivers allows tunable output currents to achieve infinite configurations of output. UL Class 2 recognized. 0-10v interface can be wired as Class 1 or Class 2 circuit. Included 2.5Kw ring and wave overcurrent protection, isolation of each individual output and a fully potted driver to protect from heat and vibration. Power factor <.93

Packaging

Sustainably manufactured outside cardboard box and biodegradable, protective poly-foam luminaire inserts.

WARRANTY

5-year limited warranty. Complete warranty terms can be located at:

http://www.starteklightingamerica.com/images/pdf/warranty/Beam_Series_Warranty.pdf

Note: Actual performance may differ as a result of installation environment and final application. All values are design or typical values, measured under laboratory conditions, at 25°C (77°F) .
