EXAMPLE: SSR-4S-35K

FEATURES

- Strip retrofit or complete fixture
- Retrofit compatible with housing widths between 4 1/4" and 4 3/8"
- Units available in 2', 3', 4', 6', 8' and a 16' tandem fixture (1 driver for 16' of fixture)
- Two standard lumen packages available
- Efficacy up to 166 lm/W
- Soft diffuse direct lighting
- Approved for dry and damp locations
- 0-10v dimming is standard
- Dim to 1% of output current
- Available in 120V-277V only

LUMEN PACKAGES

Based on 3500K CCT. Other CCT available.

MODEL	LUMENS	INPUT WATTS	Lm/W
SSx-4S-35K	3,221	22.6	143
SSx-8S-35K	6,656	44.9	148
SSx-16S-35K	13,703	86.1	159

MOUNTING OPTIONS

SM

Surface mounting is achieved by securing fixture housing to drywall with contractor provided anchors and screws through openings in housing back.

SM=Surface Mount

P05=Universal Yolk and Toggle Kit (5')

P10=Universal Yolk and Toggle Kit (10')

SPECIFICATIONS

Housing

Nominal 4 1/2" wide, 22ga cold rolled steel.

Color

Housings are standard in a powder coat white finish. Custom powder coat options are available. Consult factory.

Luminaire Length

Fixtures are available in 2', 3', 4', 8' and 16' lengths (see dimensions chart page 2).

Source

Two lumen packages are available in three color temperature options (3500K, 4000K and 5000K) — all within 3 MacAdam ellipses.

Dimming Driver

Universal Lighting Technologies (ULT) Everline series of LED drivers allows tunable output currents to achieve infinite configurations of output. UL Class 2 recognized. 0-10v interface can be wired as Class 1 or Class 2 circuit. Included 2.5Kw ring and wave overcurrent protection, isolation of each individual output and a fully potted driver to protect from heat and vibration.

Certification

Intertek cETLus Listed. RoHS (Restriction of Hazardous Substances) and Made in USA.

Environment

Suitable for dry and damp locations.
Operating temp.: -40°C to +50°C
-40°F to +122°F
Power Factor: <.96

Battery

Philips Bodine lithium ion battery providing up to 780lm(6W) or up to 1300lm(10W) for 90 minutes. UL924 listed. Class 2 compliant. Meets Title 20 CEC (California Energy Commission) efficiency standards.

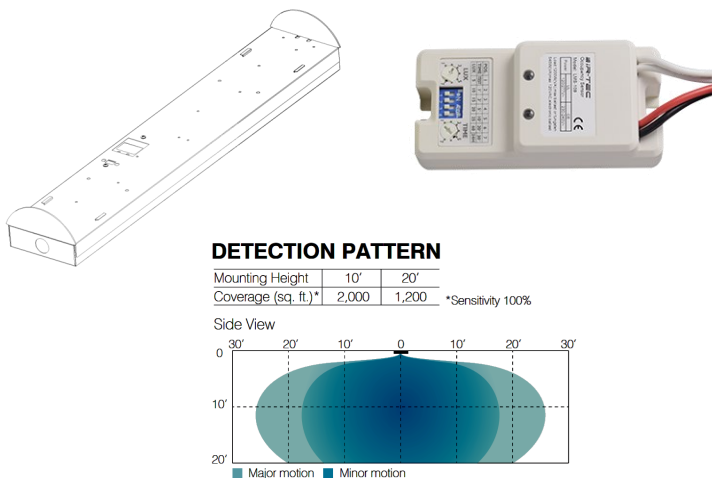

Packaging

Sustainably manufactured outside cardboard box and biodegradable, protective poly-foam luminaire inserts.

CONTROL

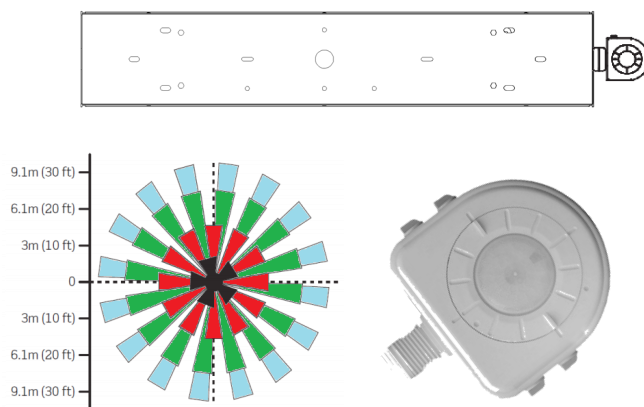

Sensor (MSI - Preferred)

The LMS-109 is a line voltage occupancy sensor designed for integrating with OEM luminaire to provide occupancy sensing based on/off switching control. This occupancy sensor utilizes the advanced High Frequency Doppler (HFD) technology which is capable of detecting the occupant's presence and movement through non-metallic enclosure, such as plastic cover or diffuser.

Sensor (DME)

Optional passive infrared motion and daylight sensor activates switching of luminaire on/off. Standard Factory settings: Luminaire is activated and increased to full bright upon detection of motion. Luminaire powers off when target zone is absent of motion activity for ~5 minutes. See coverage diagram for detection cone. Not available with decorative endcap accessory.

WARRANTY

5-year limited warranty. Complete warranty terms can be located at:

http://www.starteklightingamerica.com/images/pdf/warranty/StarStrip_Warranty.pdf

Note: Actual performance may differ as a result of installation environment and final application.
All values are design or typical values, measured under laboratory conditions, at 25°C (77°F) .
