xx (Run Length)

The standard construction of run lengths follows the logic of the table below. Consult factory for additional information.

Run lengths always start with the longest fixture and receives the power feed.

		Total Length																																							
		2	3	4	5	6	7	8	9	10	11	12	13	14	15	16	17	18	19	20	21	22	23	24	25	26	27	28	29	30	31	32	33	34	35	36	37	38	39	40

NOTE: Fixtures in continuous runs are available in 6" increments. Consult factory for smaller increments.

Sxx (Symmetric Run)

The construction of Sxx (y') is to build with equal length fixtures. The xx indicates the run length. The y' indicates the fixture length used to create the run. Please indicate this on your P.O. when placing your order.

S12' (2')	2'	2'	2'	2'	2'	2'
S12' (3')	3'		3'		3'	
S12' (4')	4'		4'		4'	
S12' (6')	6'			6'		

MOUNTING LOCATIONS

Each starter or individual fixture will be provided with (2) mounting supports (●). Each additional fixture will be provided with (1) support which can be located anywhere along the 2nd half of the fixture (highlighted below):

Examples of continuous run mounting locations are as follows:

The diagram illustrates five different running track configurations for various run lengths. Each configuration is represented by a horizontal bar divided into segments, with dots indicating specific points and labels indicating distances.

- 12' RUN:** A bar divided into three segments. The first segment contains a dot and is labeled "8'". The second segment contains a dot and is labeled "4'". The third segment is shaded gray.
- 16' RUN:** A bar divided into three segments. The first segment contains a dot and is labeled "8'". The second segment contains a dot and is labeled "8'". The third segment is shaded gray.
- 20' RUN:** A bar divided into four segments. The first segment contains a dot and is labeled "8'". The second segment contains a dot and is labeled "8'". The third segment is shaded gray. The fourth segment contains a dot and is labeled "4'". The fifth segment is shaded gray.
- 24' RUN:** A bar divided into four segments. The first segment contains a dot and is labeled "8'". The second segment contains a dot and is labeled "8'". The third segment is shaded gray. The fourth segment contains a dot and is labeled "8'". The fifth segment is shaded gray.
- 28' RUN:** A bar divided into four segments. The first segment contains a dot and is labeled "8'". The second segment contains a dot and is labeled "8'". The third segment is shaded gray. The fourth segment contains a dot and is labeled "8'". The fifth segment is shaded gray.
